| Six months ended September 30, 2021 | 31,499,650 shares | Six months ended September 30, 2020 | 31,294,064 shares |
|-------------------------------------|-------------------|-------------------------------------|-------------------|

\* Quarterly financial results reports are exempt from quarterly review conducted by certified public accountants or an audit corporation.

\* Proper use of forecasts of financial results, and other special matters

(Cautions on forward-looking statements, etc.)

Forward-looking statements, including the earnings forecasts stated in this document, are based on information currently available to the Company and certain assumptions deemed reasonable. Consequently, any statements herein do not constitute assurances regarding actual results by the Company. Actual results may differ materially from the forecasts due to various factors. For the suppositions that form the assumptions for earnings forecasts and cautions concerning the use thereof, please refer to ‘(3) Information regarding consolidated earnings forecasts and other forward-looking statements’ in ‘1. Qualitative Information Regarding Financial Results for the Six Months Ended September 30, 2021,’ on page 3 of the attached materials.

(Means of access to contents of supplementary material on financial results and financial results meeting)

A financial results presentation meeting for institutional investors and analysts will be held online on Friday, November 19, 2021. Any materials for the financial results presentation to be used in the meeting will be available on our website.

## 1. Qualitative Information Regarding Financial Results for the Six Months Ended September 30, 2021

### (1) Explanation of operating results

The Company has applied the “Accounting Standard for Revenue Recognition” (ASBJ Statement No. 29, March 31, 2020) and relevant ASBJ regulations from the beginning of the first quarter of the current fiscal year. As a result, net sales for the six months ended September 30, 2021 decreased from the same period of the previous fiscal year, and in the description about the operating results mentioned below, the amount and percentage of year-on-year change of net sales are not included.

In the Japanese economy for the six months ended September 30, 2021, there were significant impacts to economic activity, such as the implementation of “states of emergency” and “strict infection control measures” in many prefectures due to the spread of the novel coronavirus disease (COVID-19). Although vaccinations have been proceeding steadily, the outlook of the economy remains uncertain as there is no projection for when COVID-19 will be brought under control due to the spread of variants.

In this economic environment, the Group believes that its priority is the safety of all consumers and employees, and it carried out business activities to deliver deliciousness and health to more and more people through research & development, production, and sales of the health food, mushrooms, primarily in the mushroom business, while taking into account measures to prevent the spread of COVID-19. Furthermore, the Group formulated a new Medium-Term Management Plan with the Management Vision of “Expand the market and consumption, with delivering health through mushrooms as our mission” and “Achieve both generation of profit and social responsibility as a company,” and carried it out from April 2021.

As a result of the above, the operating results of the Group for the six months ended September 30, 2021 were net sales of ¥31,497 million (¥33,610 million in the same period of the previous fiscal year), decreased by ¥498 million due to the application of the Accounting Standard for Revenue Recognition. Operating loss was ¥913 million (operating profit of ¥997 million in the same period of the previous fiscal year), ordinary loss was ¥725 million (ordinary profit of ¥980 million in the same period of the previous fiscal year), and loss attributable to owners of parent was ¥612 million (profit attributable to owners of parent of ¥528 million in the same period of the previous fiscal year).

Production output for the six months ended September 30, 2021 consists of 22,434t of Bunashimeji, including Bunapi (up 2.0% from the same period of the previous fiscal year), 9,235t of Eryngii (up 1.0% from the same period of the previous fiscal year), and 6,484t of Maitake (down 3.5% from the same period of the previous fiscal year).

Performance in each business segment for the six months ended September 30, 2021 was as follows.

#### [Mushroom business in Japan]

The production division performed even more thorough hygiene control, worked to improve quality and for stable cultivation, and produced mushrooms safely and securely, while taking into account measures to prevent the spread of COVID-19. The R&D division worked to strengthen the quality control system, develop new high value-added products and pursue pharmacological effects and functionality of mushrooms. The sales division advocated for “*Kinkatsu* through mushrooms (the lifestyle habit of incorporating mushrooms into daily meals)” with the three pillars of health, beauty and sports in order to stimulate mushroom demand amid not being able to carry out direct sales promotion activities due to the impact of COVID-19, and carried out sales activities with a commitment to freshness. In terms of sales, the price of mushrooms declined as the market value of produce was low in general due to the abundant supply of produce because of continuous days with good weather in the first half of the six months ended September 30, 2021. In the second half, although mushroom prices leveled out as produce prices soared from the impact of heavy rain at the beginning of August, mushroom prices declined as demand for mushrooms was sluggish due to the intense late summer heat after entering September.

As a result, net sales for the mushroom business in Japan as a whole were ¥19,782 million (¥22,449 million in the same period of the previous fiscal year).

Net sales decreased by ¥400 million due to the application of the Accounting Standard for Revenue Recognition and relevant ASBJ regulations.

[Mushroom business outside Japan]

At Hokto Kinoko Company, a local subsidiary in the U.S., net sales and operating profit both greatly exceeded the plan as sales volume and unit price both exceeded the plan against the backdrop of economic activities activating due to the spread of vaccinations. At Taiwan Hokuto Corporation, a local subsidiary in Taiwan, net sales and operating profit both exceeded the plan due to the increase of demand for eating at home as a result of the strengthening of rules to prevent the spread of COVID-19, and mushroom prices being strong because of produce prices soaring due to heavy rain. At Hokto Malaysia Sdn. Bhd., a local subsidiary in Malaysia, the sales environment deteriorated due to strict laws to restrict activities as a result of the increase of the number of people infected with COVID-19 in the various ASEAN countries that house the Group's customers, and due to the increasing trend of restrained buying as a result of the economic outlook being unclear. In this difficult environment, net sales fell below the plan despite focusing on sales, primarily bargain sales, and reducing expenses.

As a result, net sales for the mushroom business outside Japan as a whole were ¥2,875 million (¥2,172 million in the same period of the previous fiscal year). There is no effect on net sales due to the application of the Accounting Standard for Revenue Recognition and relevant ASBJ regulations.

[Processed products business]

The processed products business carried out sales of processed mushroom products, such as those that are boiled or frozen, developed boiled, frozen and dried items, and worked to develop new products and develop markets. Although the situation continues to be difficult for business related to restaurants as the inclination to eat at home is continuing due to the impact of COVID-19, sales were steady for convenience stores. In the mail-order business, sales of retort food were favorable. Furthermore, at the subsidiary Arden Corporation, sales decreased year on year due to a rebound from the previous year.

As a result, net sales for the processed products business as a whole were ¥3,576 million (¥4,081 million in the same period of the previous fiscal year). Net sales decreased by ¥1 million due to the application of the Accounting Standard for Revenue Recognition and relevant ASBJ regulations.

[Chemical products business]

Amid prices of materials being affected by soaring crude oil prices, the First Business Department, whose main business is packaging materials, strengthened sales from various perspectives, such as proposals for environmentally-friendly packaging materials and industrial materials that will contribute to SDGs, energy-saving equipment, etc., and worked to reinforce sales and profits. At the Second Business Department, which primarily produces and sells our own products and sells agricultural materials, sales and profits were both favorable due to the expansion of new orders for our own products, such as cultivation bottles and food containers for mushroom farmers. Furthermore, the Toyono Factory newly acquired ISO 9001 certification in order to improve quality, etc.

As a result, net sales for the chemical products business as a whole were ¥5,262 million (¥4,907 million in the same period of the previous fiscal year). Net sales decreased by ¥95 million due to the application of the Accounting Standard for Revenue Recognition and relevant ASBJ regulations.

## **(2) Explanation of financial position**

Positions of assets, liabilities and net assets, and the factors thereof as of September 30, 2021 are as follows.

### **(Assets)**

Current assets as of September 30, 2021 amounted to ¥31,463 million, up ¥4,581 million from the previous fiscal year end. This was due mainly to increases of ¥2,599 million in cash and deposits, ¥671 million in notes and accounts receivable - trade and ¥556 million in merchandise and finished goods. Non-current assets amounted to ¥73,351 million, down ¥3 million from the previous fiscal year end.

As a result, total assets amounted to ¥104,814 million, up ¥4,577 million from the previous fiscal year end.

### **(Liabilities)**

Current liabilities as of September 30, 2021 amounted to ¥29,105 million, up ¥5,781 million from the previous fiscal year end. This was due mainly to an increase of ¥10,012 million in short-term borrowings and a decrease of ¥3,199 million in current portion of long-term borrowings included in other under current liabilities. Non-current liabilities amounted to ¥23,937 million, up ¥1,165 million from the previous fiscal year end. This was due mainly to an increase of ¥1,651 million in long-term borrowings.

As a result, total liabilities amounted to ¥53,042 million, up ¥6,946 million from the previous fiscal year end.

### **(Net assets)**

Total net assets as of September 30, 2021 amounted to ¥51,772 million, down ¥2,368 million from the previous fiscal year end. This was due mainly to the recording of ¥612 million in loss attributable to owners of parent and a decrease of ¥2,202 million in retained earnings due to the payment of dividend of ¥1,590 million.

As a result, the equity ratio was 49.4% (54.0% at the end of the previous fiscal year).

## **(3) Information regarding consolidated earnings forecasts and other forward-looking statements**

There is no change in the earnings forecasts in the “Summary of Consolidated Financial Results for the Year Ended March 31, 2021 (Based on Japanese GAAP),” dated May 14, 2021.

The earnings forecasts are based on information currently available to the Company and certain assumptions deemed reasonable. Actual results may differ materially from the forecasts due to various factors.

### **(3)Notes to quarterly consolidated financial statements**

#### **Notes on assumptions for going concern**

Not applicable.

#### **Notes on significant changes in the amount of shareholders' equity**

Not applicable.

#### **Changes in accounting policies**

##### *Application of Accounting Standard for Revenue Recognition, Etc.*

The Company has applied the “Accounting Standard for Revenue Recognition” (ASBJ Statement No. 29, March 31, 2020) and relevant ASBJ regulations effective from the beginning of the first quarter of the current fiscal year, and it has recognized revenue at the time the control of promised goods or services is transferred to the customer at the amount expected to be received upon exchange of said goods or services.

Accordingly, certain payments to customers, such as rebates, that were recorded as selling, general and administrative expenses in the prior years have been reclassified to deduction of net sales. For subcontract processing with supply of materials for value (the “transaction”), raw materials, etc. supplied for value were previously derecognized. However, because the Group has an obligation to repurchase the supplied raw materials, etc. in the transaction, the supplied raw materials, etc. will not be derecognized.

Furthermore, for transactions in which the Group acts as an agent for providing products to customers, the full amount of the consideration received from customers was previously recognized as revenue, but the Group has changed this method so that revenue is recognized at the net amount calculated by deducting the amount paid to the supplier from the amount received from the customer.

The application of the Accounting Standard for Revenue Recognition and relevant ASBJ regulations is subject to the transitional treatment provided for in the proviso to paragraph 84 of the Accounting Standard for Revenue Recognition. The cumulative effect of the retrospective application, assuming the new accounting policy had been applied to periods prior to the beginning of the first quarter of the current fiscal year was added to or deducted from the opening balance of retained earnings of the first quarter of the current fiscal year, and thus the new accounting policy was applied from such opening balance.

As a result of this change, for the six months ended September 30, 2021, net sales decreased by ¥498 million, cost of sales decreased by ¥95 million, selling, general and administrative expenses decreased by ¥402 million, while there is no effect on operating loss, ordinary loss and loss before income taxes. In addition, work in process and other under current liabilities increased by ¥41 million and ¥41 million, respectively, but there is no effect on the beginning balance of retained earnings for the first quarter of the current fiscal year.

In accordance with the transitional treatment provided for in paragraph 89-2 of the Accounting Standard for Revenue Recognition, figures for the previous fiscal year have not been restated in accordance with the new approach to presentation.

##### *Application of Accounting Standard for Fair Value Measurement, Etc.*
